Contents

Section 1: Discovering more about yourself and Careers

- i) 'Know Thyself'
- ii) Strengths and skills
- iii) Personality and Careers Quizzes
- iv) Career Websites

Section 2: The wide variety of Level 1, 2 and 3 Qualifications (after GCSE's) – something for everyone!

Section 3: The National Qualifications Framework –

- i) Levels 1-8

Section 4: Further Education –

- i) Sixth Forms
- ii) Further Education College

Section 5: Looking ahead - Higher Education

Section 6: Apprenticeships – from GCSE to degree level

Section 7: Understanding Grades –

GCSEs, A-Levels, Applied Levels, Vocational (e.g. BTEC), Degree

Section 8: Preparing yourself – *top-tips*

Section 1: i)

Knowing yourself...

Your:

strengths

weaknesses

skills

values

preferences

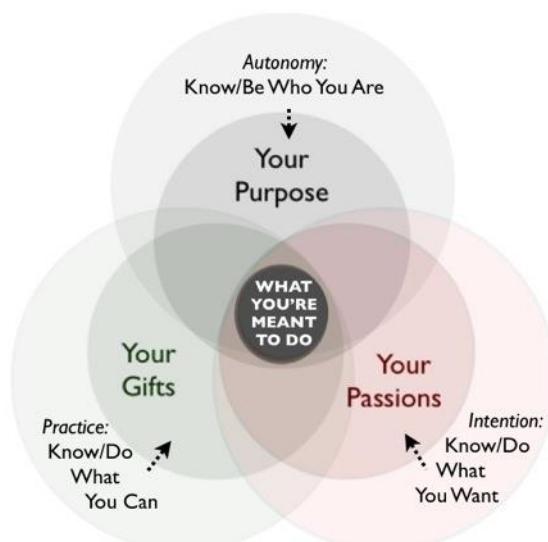

As well as...

what you enjoy

what brings you the most fulfilment

Are all key in helping you:-

- 1) Consider careers which may suit you well
- 2) Discover routes into those careers, which suit you best

Section 1: ii)

Buy a book or create a file – call it 'Career Ideas', 'My Career Dreams', or something similar. In it - begin to brainstorm - list what makes you, you – your abilities, skills, strengths...

Hard Skills (measurable skills):

A definition of ability – “talent, skill, or proficiency in a particular area”

A definition of hard skills – “**Hard skills** are teachable abilities or **skill** sets that are easy to quantify. You typically learn them through the classroom, at work or through studying training/teaching resources.”

Soft and Transferable Skills

A definition of a Soft Skill – Wikipedia describe skills as:

“...a combination of people **skills**, social **skills**, **communication skills**, character or personality traits, attitudes, career attributes, social intelligence and emotional intelligence quotients, among others, that enable people to navigate their environment, work well with others, perform well, and achieve.”

A definition of Transferable Skills – Indeed.co.uk describe them as follows:

“...**Transferable skills**, also known as “portable skills,” are qualities that can be transferred from one job to another. You likely already possess many transferable skills employers want, like organization or strong communication. You can strengthen those skills and develop new ones that employers value across industries and jobs.”

Soft and Transferable skills are highly sort after by employers and universities. Research the words below. Write down the ones you already have, and give examples. Also write those you would like to work toward or improve upon:

Adaptability

Analytical Skills

Commercial awareness

Communication

Decision making

Flexibility

Initiative

Innovation

I.T. Skills

Leadership

Negotiation

Networking

Numeracy Skills

Organisation

Problem solving

Research

Resilience

Teamwork

Time management....

There are more soft/transferable skills, can you find them online?

Weaknesses: It is good to be self-aware. While we do not need to focus on our weaknesses all the time, it is important to be aware of areas you need to work on – is it *time management*? Or *Teamwork*? How can you improve on your weaknesses? Employers will be keen to know how you are working on your weaknesses too. Always seek to frame weaknesses in a positive way and let Employers know you are working on them.

A common interview question – Tell us about your strengths and weaknesses! Start preparing now, it will definitely help you ☺.

TASK: List the abilities / hard skills, soft and transferable skills you have...

A few examples:

Subjects you are good at in school –

- Where you achieve your best grades
- When you have achieved a clear outcome – won a prize or commendation for a piece of work / artwork / written work, etc.
- An ability to communicate in another language

A skill you have acquired in your spare time – at a club, or at home –

- learning to play a musical instrument
- achieving a badge as part of a Uniformed organisation, e.g. Scouts, Girls'/Boys' Brigade, Guides, Air Cadets, Sea Cadets, Army Cadets, Volunteer Police Cadets, etc.
- Others tell you they love a particular dish you make
- You are able to fix and mend things – bikes, computers, clothes
- Success within a sport – within a team, competitively, or achieving a certain level – e.g. different belts within Judo, School or Local Team, etc.

Can you think of any more strengths and skills? Why not ask at home and your friends too?

Write them down.

Don't worry if you are unable to think of many examples right now, your abilities and hard skills will grow as you go through life and acquire more!

- www.healthcareers.nhs.uk - for a wide range of detailed NHS careers information
- www.prospects.ac.uk – good source of careers information and what you can do with your degree.
- www.planitplus.net - see careers areas or the careers match quiz
- <http://www.tomorrowsengineers.org.uk/> - engineering information
- https://www.lmiforall.org.uk/explore_lmi/ (important 'Labour Market Information' – including salary, estimated growth relating to different jobs/sectors, etc.)

Section 2:

Post 16 Options and Qualification Levels 1, 2 and 3

The beauty of education and training between the ages of 16-18/19 is that it is free! It is also a time when students can focus and go deeper into subjects which interest them, gain invaluable work experience, and choose their preferred way of studying.

The government want every student to continue in some form of education / training until they are 18.

It important to research and understand what is available. Choose the options which will enable you to excel and get **your** best grades.

Be sure to check entry requirements for schools, colleges and apprenticeships.

A-Levels

A-levels (advanced level qualifications) cover a variety of subjects and are exam based (apart from more practical subjects like Art, D.T. and Photograph which involve more coursework). They are one of the options allowing you to go on to university, if you achieve the required grades (certain subjects may be required to study certain courses). Some courses (e.g. Medicine) and universities (e.g. Oxford and Cambridge, and some Russell Group Universities) currently only recognise A-levels and some require the top grades – A*'s and A's , while others will accept grades B – C or D, for entry). This form of study relies more on classroom teaching and independent study, followed by exams at the end of 2 years. Explore the subjects available at Sixth Form and some Colleges. Most people choose to study 3 A-Levels (standardly required by universities), but some opt to study 4 (and may then drop a subject). Be sure you are interested in the subjects you choose and will be most likely to achieve your best grades in them. A-levels often require around 5 GCSE's at grade 5, with potentially grade 6 or 7 achieved in the subject you are aiming for (e.g. some schools require a 7 at GCSE to study A-level Maths, and a grade 6 in certain other subjects to study a Science subject, English or History, for example). Some colleges require lower grades for entry. Students often find A-levels a much bigger stretch than GCSEs as they go much deeper into the subject. If you are unsure, talk with your teacher about whether A-levels will be a good fit for you.

<https://www.careerpilot.org.uk/information/a-levels>

Applied A-Levels (some are also referred to as Extended Certificates)

Applied A-Levels are the equivalent to A-levels but are balanced between coursework and exams – roughly 50-50. Subjects offered currently include: Applied Criminology, Applied Games Production, Applied Human Biology, Applied IT, Applied Production Arts, Applied Psychology, Applied Law. They are offered by some Colleges and Sixth Forms.

Applied Levels will suit those who wish to show their ability through coursework, as well as exams. They are also a good option for students who wish to do a more coursework based qualification, but do not wish to commit to one subject area (as would be required with the BTEC Extended Diploma).

<https://www.careerpilot.org.uk/information/vocational-qualifications/types-of-vocational-qualifications/applied-general-qualifications>

Apprenticeships

Apprenticeships combine work with learning and you get paid as well! This option is good if you are clear which career you would like to follow, and are looking to start work as soon as possible. You can find out more about apprenticeships and search for vacancies in your local area on the official government apprenticeship site: <https://www.findapprenticeship.service.gov.uk/apprenticeshipsearch> .

You can start an apprenticeship straight after GCSEs (Intermediate level and Advanced level – depending on your GCSE grades). You can follow apprenticeships through all the way to degree level in some career sectors if you wanted to. Many colleges help to organise apprenticeships so contacting them may help, along with searching via apprenticeship websites.

******It is strongly advised you apply for college as back-up******

<https://www.careerpilot.org.uk/information/apprenticeships>

T-Levels

T-levels are new Level 3 courses which combine study at college with periods of work experience with a company. Like all Level 3 courses, they last two years. They will likely require the types of grades required to study A-levels (around grade 5). This will be a good option if you feel career about your career goals and if you prefer to be practical, gain experience, alongside studying. Certain subjects are being rolled out at a few colleges. They will eventually cover a wider range of subjects. You can find out more about them here:

<https://www.gov.uk/government/publications/introduction-of-t-levels/introduction-of-t-levels>

<https://amazingapprenticeships.com/resource/t-levels-film-for-students/>

Traineeships

A traineeship is a course with work experience that gets you ready for work or an apprenticeship. It can last up to 6 months.

You can apply if you're:

- eligible to work in England
- unemployed and have little or no work experience
- aged 16 to 24 and qualified below Level 3

Search for opportunities here: <https://www.gov.uk/find-traineeship>

<https://www.careerpilot.org.uk/information/apprenticeships/traineeships>

Vocational Courses – e.g. BTEC / other Technical Certificates and Diplomas:

These are work-related courses delivered mostly by colleges, and some sixth forms. They are available at different levels, to suit your GCSE qualifications – ranging from creative to construction to computing to engineering to vehicle maintenance to media and many more subjects. These courses usually combine coursework and fewer exams. You will need to work consistently throughout the course, meeting coursework deadlines. Many Universities accept BTEC qualifications. Employers appreciate the skills you learn in time management through this type of course. More traditional universities (e.g. Oxford and Cambridge and some Russell Group universities, may not recognise BTEC, or may require a single A-level alongside (the equivalent to taking 4 A-levels). Therefore, it is worth considering what you may like to study and where – research these options, and work backwards.

Level 3: Entry requirements for level 3 courses such as the BTEC National Diploma (equivalent to 3 A-Level) and BTEC National Certificates (equivalent to 1 A-Level) are usually GCSE grades 4 and 5 which is a bit lower than some schools/colleges for A-levels.

Level 2: Entry requirements for level 2 courses e.g. BTEC are usually a certain number of GCSEs at grade 3.

Foundation Level 1: This is a post entry level qualification. Some colleges start students training for technical trades and professions at this level – e.g. Hairdressing and Motor Vehicle Maintenance (others start you on the Level 2 course, or even Level 3). Level 1 courses are usually available in most subjects. They tend to require no qualifications, but you need to show enthusiasm and professionalism, and a desire to succeed, through your application and interview.

Many courses are offered at all the local colleges. Some subjects like catering, construction trades, animal care and horticulture are only offered at some of the colleges so, again, check all these details carefully.

<https://www.careerpilot.org.uk/information/vocational-qualifications/what-are-vocational-qualifications>

- It is important to **consider what career you are interested in** to help you map a path toward that goal.
- Some careers will require very specific routes – e.g. Medicine.
- It is important to **choose options** which will **enable you to flourish** and **achieve your best grades**. A-Levels are not best for everyone, and BTEC or an apprenticeship do not suit everyone...
- What is best for **you?**

Section 3: Qualification Levels

National Qualifications Framework					
LEVEL 8	Doctorate PhD				
LEVEL 7	Masters Degree MS, MSc, MPhil		Masters Degree Apprenticeship

Map of F.E. Colleges, Berkshire

To find out where F.E. Colleges are located, you can use google maps:-

<https://www.google.com/maps/search/colleges+in+berkshire/@51.5724603,-0.9709554,10z/data=!3m1!4b1>

Section 5

Higher Education (University + some Further Education (F.E.) Colleges (levels 4-8):

Thinking about university? Useful websites:

www.ucas.com – The UK University application and information website

www.sacu-student.com – Personal Statement help and advice. Great student section

www.prospects.ac.uk – Graduate career prospects

<http://russellgroup.ac.uk/for-students/school-and-college-in-the-uk/subject-choices-at-school-and-college> – help with A' level choice (also explore what the Russell Group university are)

www.thecompleteuniversityguide.co.uk – useful information

www.thestudentroom.co.uk – Forums on choosing universities / degrees / student life and much more!

<https://www.theguardian.com/education/ng-interactive/2019/jun/07/university-league-tables-2020> – ranks universities and university courses

*Some F.E. Colleges also offer degrees and HNC (Higher National Certificates) and HND (Higher National Diploma) courses

The Open University - <http://www.open.ac.uk/> - Offer flexible ways to study

Section 6

Apprenticeships:

If you would like to apply for an apprenticeship to begin after Year 11, it is also important to apply for F.E. College/s / Sixth Form also, as entry to Apprenticeships can be competitive. Check the qualification you will gain and how it will enable you to go further in your education and training.

Depending on your grades, you will be able to apply for a Level 2 (Intermediate) or Level 3 (Advanced) Apprenticeship after your GCSEs.

Here are the different levels of Apprenticeship:-

- Intermediate Apprenticeship – A range of GCSE grades required for entry
- Advanced Apprenticeship – 4+ GCSE's at 4-9 grades required for entry
- Higher Apprenticeship – 2+ 'A' levels required for entry
- Degree Apprenticeship - 2+ 'A' levels required for entry

*** Some apprenticeships may require you to have studied certain subjects***

Helpful websites:

There is not currently one, go to website for Apprenticeships, so include a wide range of websites and assistance in your search

www.findapprenticeship.service.gov.uk - the government website – probably includes widest number of apprenticeships available. Includes email alerts for new opportunities.

www.notgoingtouni.co.uk

www.thestudentladder.co.uk - excellent apprenticeship website offering placements with large high profile companies as well as advice.

Section 8

Top Tips

- **Use** a **notebook** or create a **file** – name it 'Careers Ideas' or something similar. **Record** your ideas and research as you go along. **Invest** time in YOU...You will not regret it!
- **Complete** Personality and Careers Quizzes
- **Explore** Job Profiles on Career websites
- **Keep** an ongoing list of your abilities / skills with examples
- **Research** your options after Year 11 – what steps will you need to take to reach your career goals?
- **Attend** your Careers meeting 😊. It will be 30 minutes long. Be as prepared as you can – complete quizzes, etc. If you like, bring your research and ideas notebook or file
- **Visit** your Sixth Form, other Sixth Forms and F.E. Colleges (check Open Day / Evening dates and times – add them to your calendar (*book a place if necessary)
- **Explore** Apprenticeships:

If you would like to do an Apprenticeship after Year 11 – register with the government website: www.findapprenticeship.service.gov.uk

Apply for Apprenticeships via a variety of websites. Also apply for F.E. College as back-up

- **Remember** – you can **apply** to as many Sixth Forms and/or F.E. College Courses as you like – you just need to confirm or decline places once you get your GCSE results in August 2021. Some courses are very popular – **apply soon**.

Always **remember**...

Believing in yourself is the first step to success

- Inspiration -

**“HARD WORK BEATS
TALENT WHEN TALENT
DOESN'T WORK HARD”**
-TIM NOTKE

**The best preparation for
tomorrow is doing your best
today.**

H. Jackson Brown, Jr.

 BrainyQuote

Run Your Own Race...

(your journey is unique to you, no need to compare it to others people's journeys 😊)
