

How to use your Select Grocery eCode

An **eCode** looks like this:

Redemption eCode
1234567890123456

1

You will be sent an email or a letter. If the email or letter contains a code with 16 numbers, it is an **eCode**.

2

The email or letter with the eCode will tell you how much money the eCode is worth. You need to go online to swap this eCode for an **eGift card** (an online voucher).

Redemption eCode

Redeem

5

Choose your supermarket.

6

Choose the amount of money you want to order.

Value

15

Min of £1 - in multiples of £1

7 Click on **Add to basket** to confirm your choice.

8 Click on **Checkout** and enter your email address.

A screenshot of an email confirmation form. It has two input fields: 'Email*' and 'Confirm Email*'. An arrow points from the 'Checkout' button in the previous screenshot to the 'Email*' field.

9 The eGift card (online vouchers) will be sent to your email address within 24 hours. If the email does not arrive, check your junk mail folder. The email will have the eGift card in it.

The eGift card has a barcode or a link to see a barcode online.

10 If you cannot see a barcode it could be because the pictures are not showing. You may need to click on **Download images** to see the barcode. You will need the barcode to use the eGift card to pay at the supermarket.

11 Take the eGift card (online voucher) into the shop and show it at the till to pay. You can show the eGift card on your mobile phone screen or print it out.

12 After you have spent all the money on the eGift card (online voucher) it cannot be used again. Please delete the email or throw away the printed eGift card.

To check how much money is left on your eGift card, ask the supermarket's customer services team when you are in store. Some supermarkets also let you check by phone or on their website.
