Dear Parent/Guardian

## Year 9 assessment week, separate science and setting

On the week beginning the 26 April the year 9 assessment week starts. In that week all students will sit assessments in all their subjects, including 3 papers in science. The tests will be biology, chemistry, and physics.

The results of these tests will play a key role in determining which class they are placed in year 10, and whether students will be offered separate sciences (triple science) or combined science (double science).

To aid in revision, students will be given revision check lists on Google Classroom along with useful resources, as well as the usual access to Kerboodle and GCSEpod.

I wish all students good luck in preparation for their exams and I am sure they will benefit from your support in this endeavour.

Yours sincerely

Mr R James Curriculum Leader Science
