Dear Parent/Guardian

Covid contingency planning - update

I promised to update you this afternoon on the staffing situation in school caused by Covid related absence. I am pleased to say that we believe that we will not need to ask any year groups to stay at home tomorrow. We are therefore planning for all students to be in school as normal.

This decision, however, is subject to review at short notice. If there is any change to the plan, we will try to inform you as early as possible – please check the website for any urgent updates.

In addition to measures already outlined, the local public health authorities have asked all staff to complete additional PCR tests and I would like to ask that all students complete a lateral flow test before school tomorrow and before school on Monday morning. Please contact the school if you need additional test kits.

As ever, thank you for your understanding and support.

Yours Sincerely

Mr A Johnson
headteacher
