Dear Parent/Guardian

Year 8 Research Project by the Anna Freud National Centre

Maiden Erlegh School in Reading have been offered a great opportunity to be involved in a research project by the Anna Freud National Centre for Children and Families. This project has been commissioned by the Department for Education and will involve students that are in Year 9 during the 2022 – 2023 academic year.

The link [here](#) is a document from the organisation that details the research further and what this would involve. The document also details how to opt out for your child should you wish to.

Yours sincerely

Miss B Davies

Assistant Headteacher - Safeguarding
