

02 December 2022

Dear Parent/Guardian

GCSE Mathematics Revision & Practice Book and Revision flash cards

To support your child through their GCSE course, the mathematics department have purchased what we believe to be the most suitable GCSE mathematics revision & practice book and revision flash cards.

The Collins GCSE Revision & Practice Books combine the revision guide and workbook (practice worksheets) in to one book. We are able to offer each book for £5.50 rather than the usual £10.99, resulting in a substantial saving to you. There are separate books for the Higher Tier and the Foundation Tier.

The Collins GCSE Revision Flash cards are useful for revising and memorising key points in each topic. We are also offering each flash card pack for £5.50 rather than £8.99. There are separate revision flash cards for the Higher Tier and the Foundation Tier.

If you would like your child to have these resource to support their progress through their GCSE mathematics course, please use the following link to [ParentPayShop](#). **As we have limited resources, this is going to be 'First come, first served' basis.**

With the Pre-Public Examinations (PPEs) commencing in January for Yr11, now would be the ideal time to purchase the revision & practice book and flash cards.

If your child is in receipt of Pupil Premium funding, these can be purchased through the school's Pupil Premium fund. In this case please would you complete the linked form (QR link below) to indicate that you would like the resources for your child. **As we have limited resources, this is going to be 'First come, first served' basis.**

Please do not hesitate to contact us should you have any further queries.

Yours sincerely

Mrs A Chakera

Curriculum Leader: Mathematics and Mathematical Thinking
