

24 June 2026

Dear Parent / Carer,

Year 10 Careers Day – Thursday 26 June

We are writing to inform you that our Year 10 students will be taking part in a dedicated Careers Day on Thursday 26 June. There will be no change to the usual school day timings, please see information below about the day.

Students will be working closely with Source EV as part of the Champions of Enterprise programme. This will provide a valuable insight into a rapidly developing industry and support students in considering their future career pathways.

Please see below statement from Source EV:

Source EV UK develops and operates ultra-rapid electric vehicle charging infrastructure and energy solutions. We work with businesses, local authorities, and property owners to design, install, and manage EV charging networks that are safe, reliable, scalable, and fit for the future. We are passionate about playing a part in the UK's journey towards net zero and are committed to making electric vehicle adoption more accessible and practical for everyone, ensuring stress free seamless charging for connected communities.

We are delighted to be working with Maiden Erlegh School in Reading as part of the Champions of Enterprise programme. Through this collaboration, we are looking forward to sharing insights into our industry, supporting students' understanding of the rapidly evolving world of sustainable technology, and helping to inspire the next generation as they explore future career pathways.

Throughout the day, students will engage in a range of activities designed to develop their understanding of careers linked to sustainability, technology and enterprise, as well as key skills such as teamwork, communication and problem solving.

We believe this will be a highly beneficial and inspiring experience for all students involved. Thank you for your continued support.

Yours sincerely,

Miss L Ryan
Head of Year 10
